A PARTIAL LISTING OF
NAMES & DATES OF INDIVIDUALS WHO RECEIVED THEIR SECOND ANOINTINGS
1843-1974

by

Richard A. Ware

This list of names of individuals who received their second anointings was initially created by me in 1973 and later updated and added to in 1985.

While attending BYU for my undergrad degree (1969-1973) I also had authorized access to the church historian's office confidential section in Salt Lake City. From 1971-1974 I accessed files and documents relating to over two dozen doctrines and practices that were taught and which occurred during the early church era. From these files I was able to compile a list of names of individuals who had received their second anointings. Other colleagues who were also at BYU with whom I collaborated were also researching the CHO for similar and other files and made their own list.

My list is an alphabetical listing of the men's names who received the second anointing and under each male name is the name of the wives who also received their second anointing. The date and location where the ordinance was performed and the source document from which the information was obtained.

The journals, books and other sources that contained the information were arranged by date entry, so the location of the information within any document can be found by looking for the date the person received the ordinance. The Book of Anointings NT refers to the Nauvoo Temple (NT).

In counting the number of females where the entry says "wives", only 2 wives were counted even though there could have been more than 2.

My list contains 1,296 names, 473 males and 823 females.
